

Como Pais,

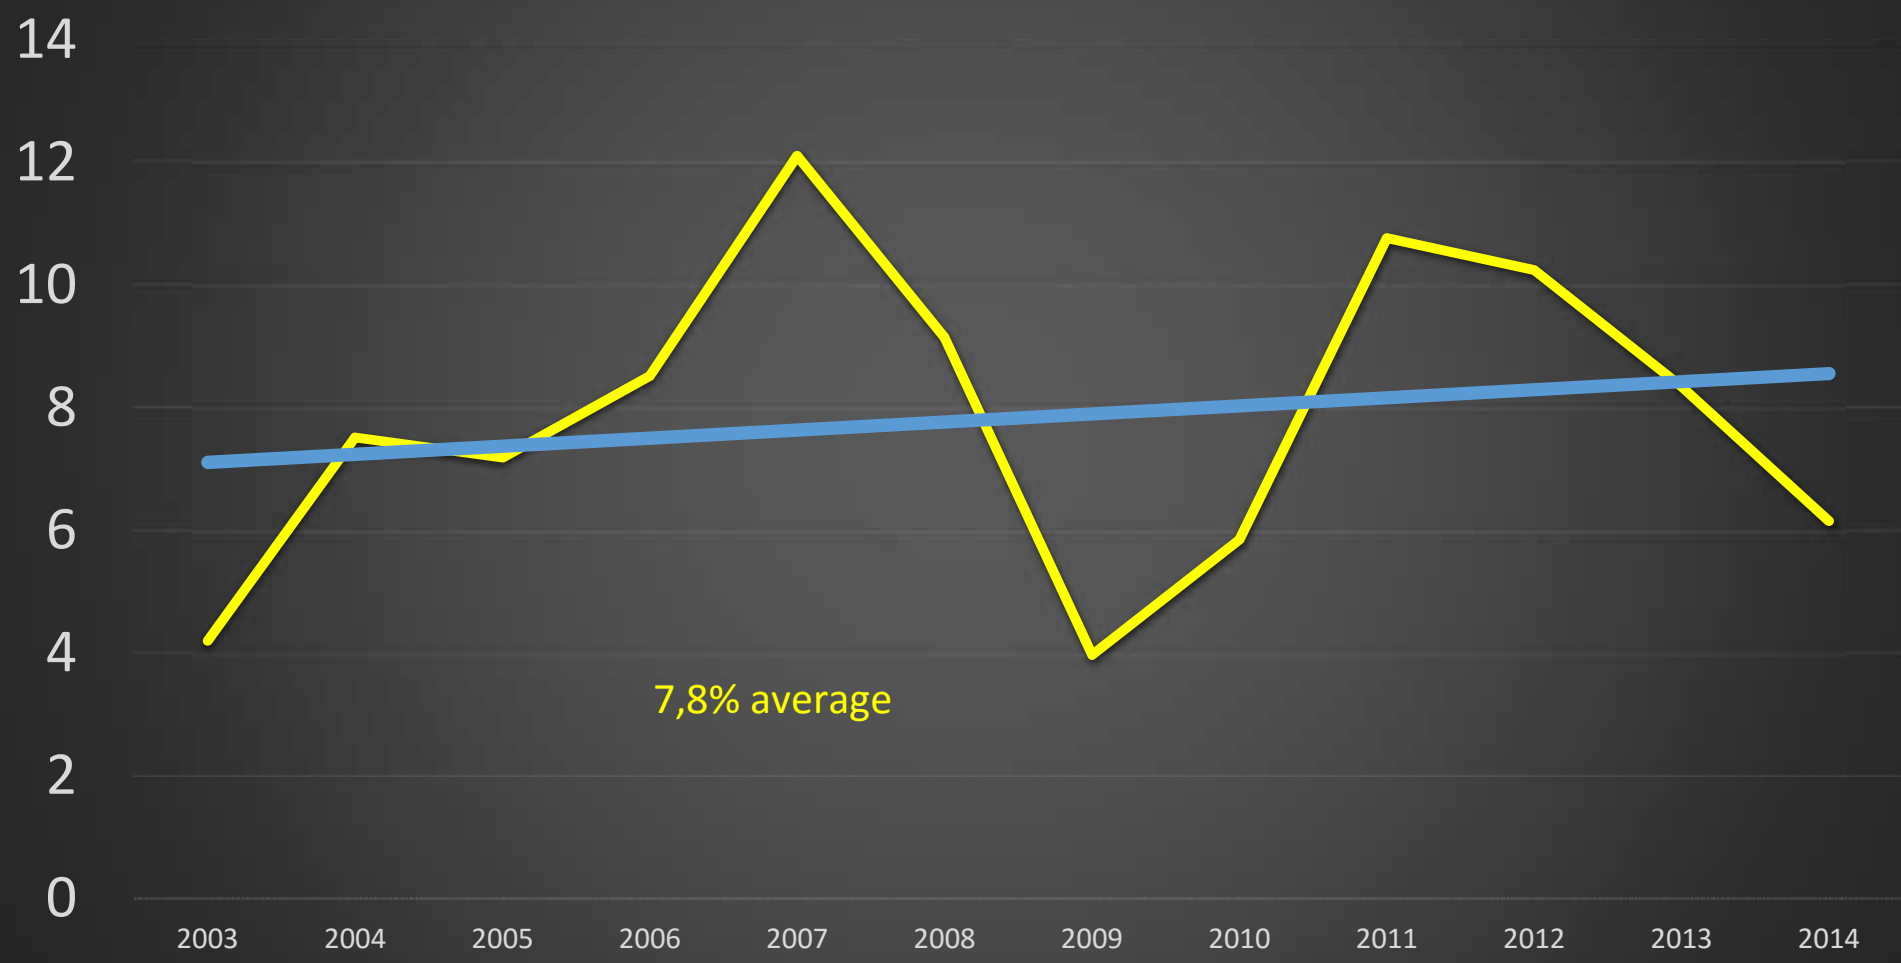

Nos ha ido Bien !

(15 gloriosos)

Presupuesto Nacional (\$millones)

GDP Growth % yr

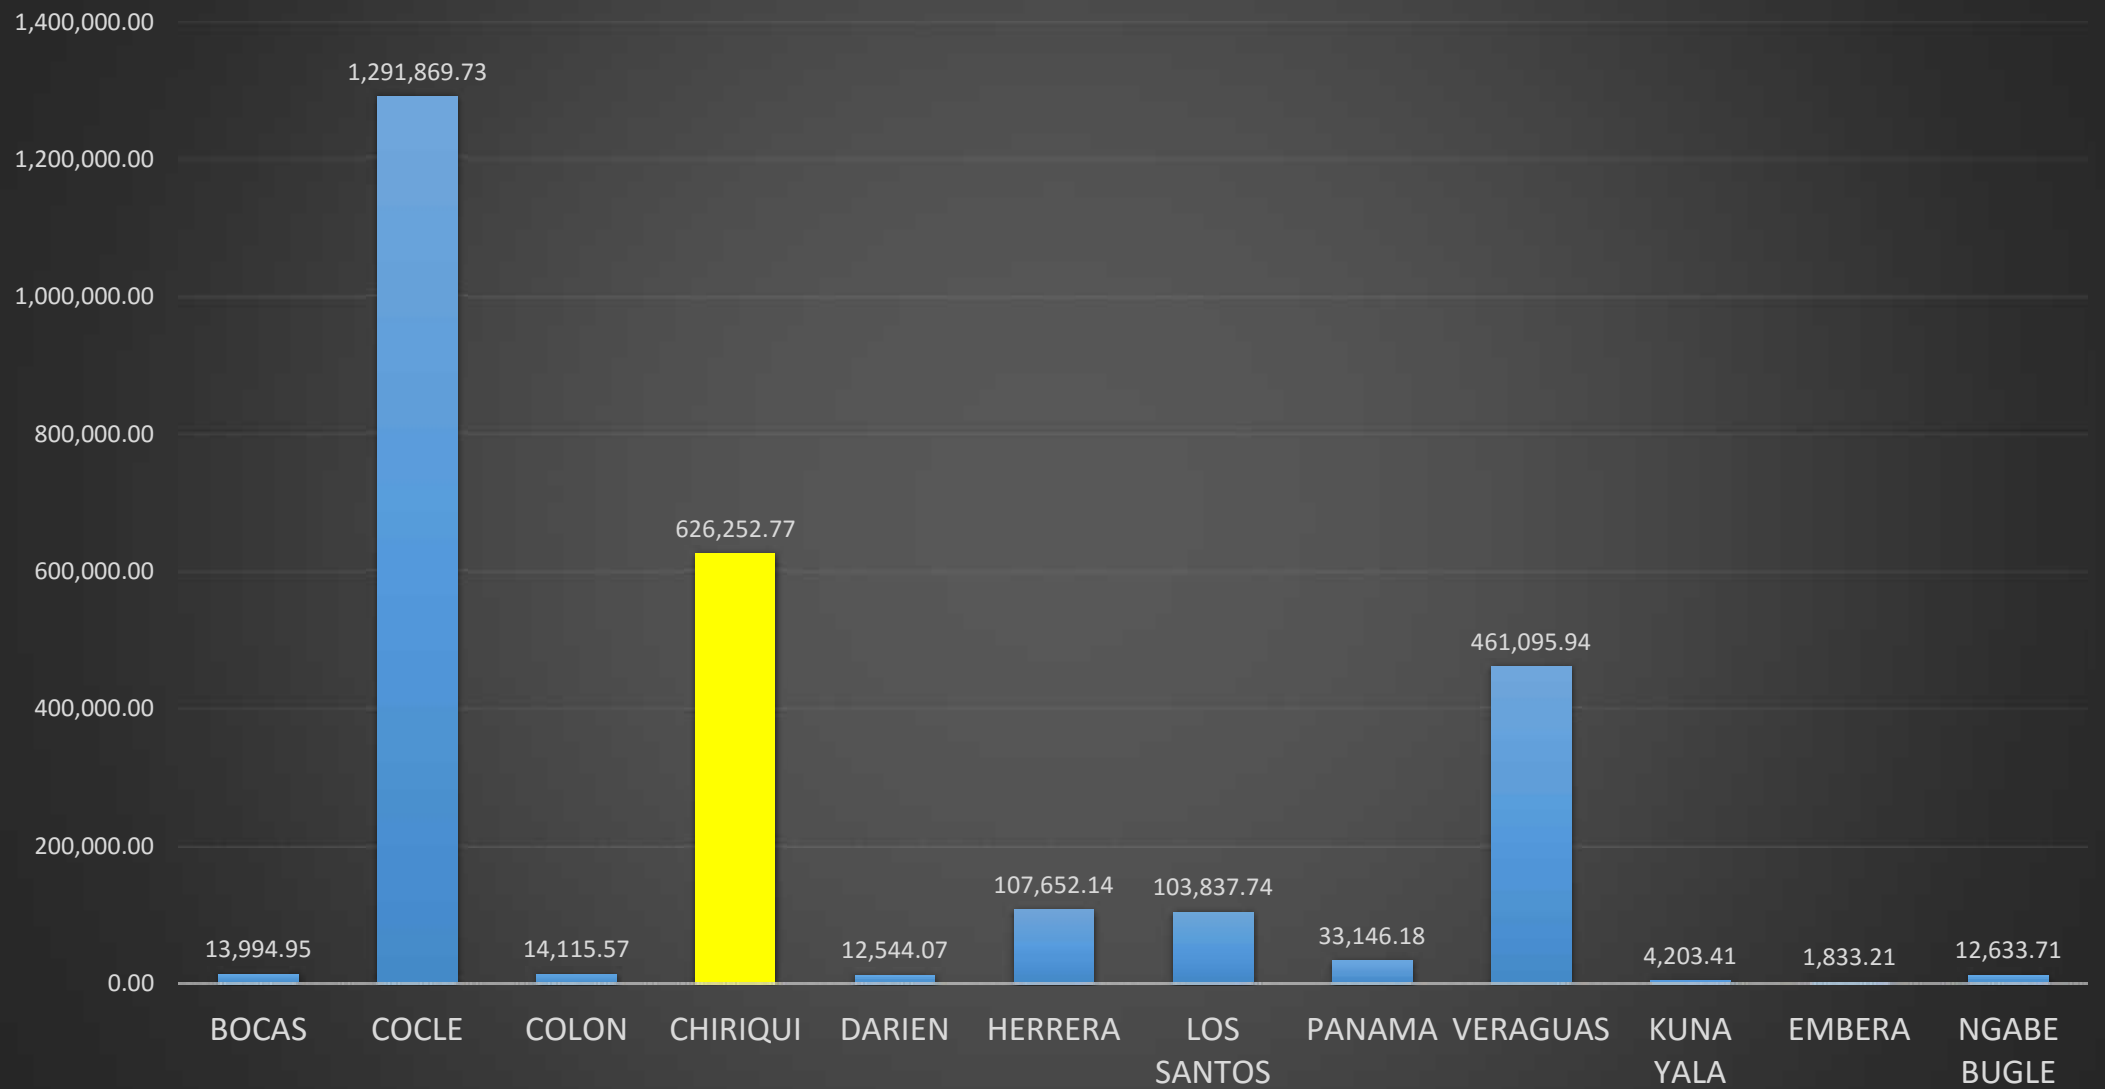

7,8% average

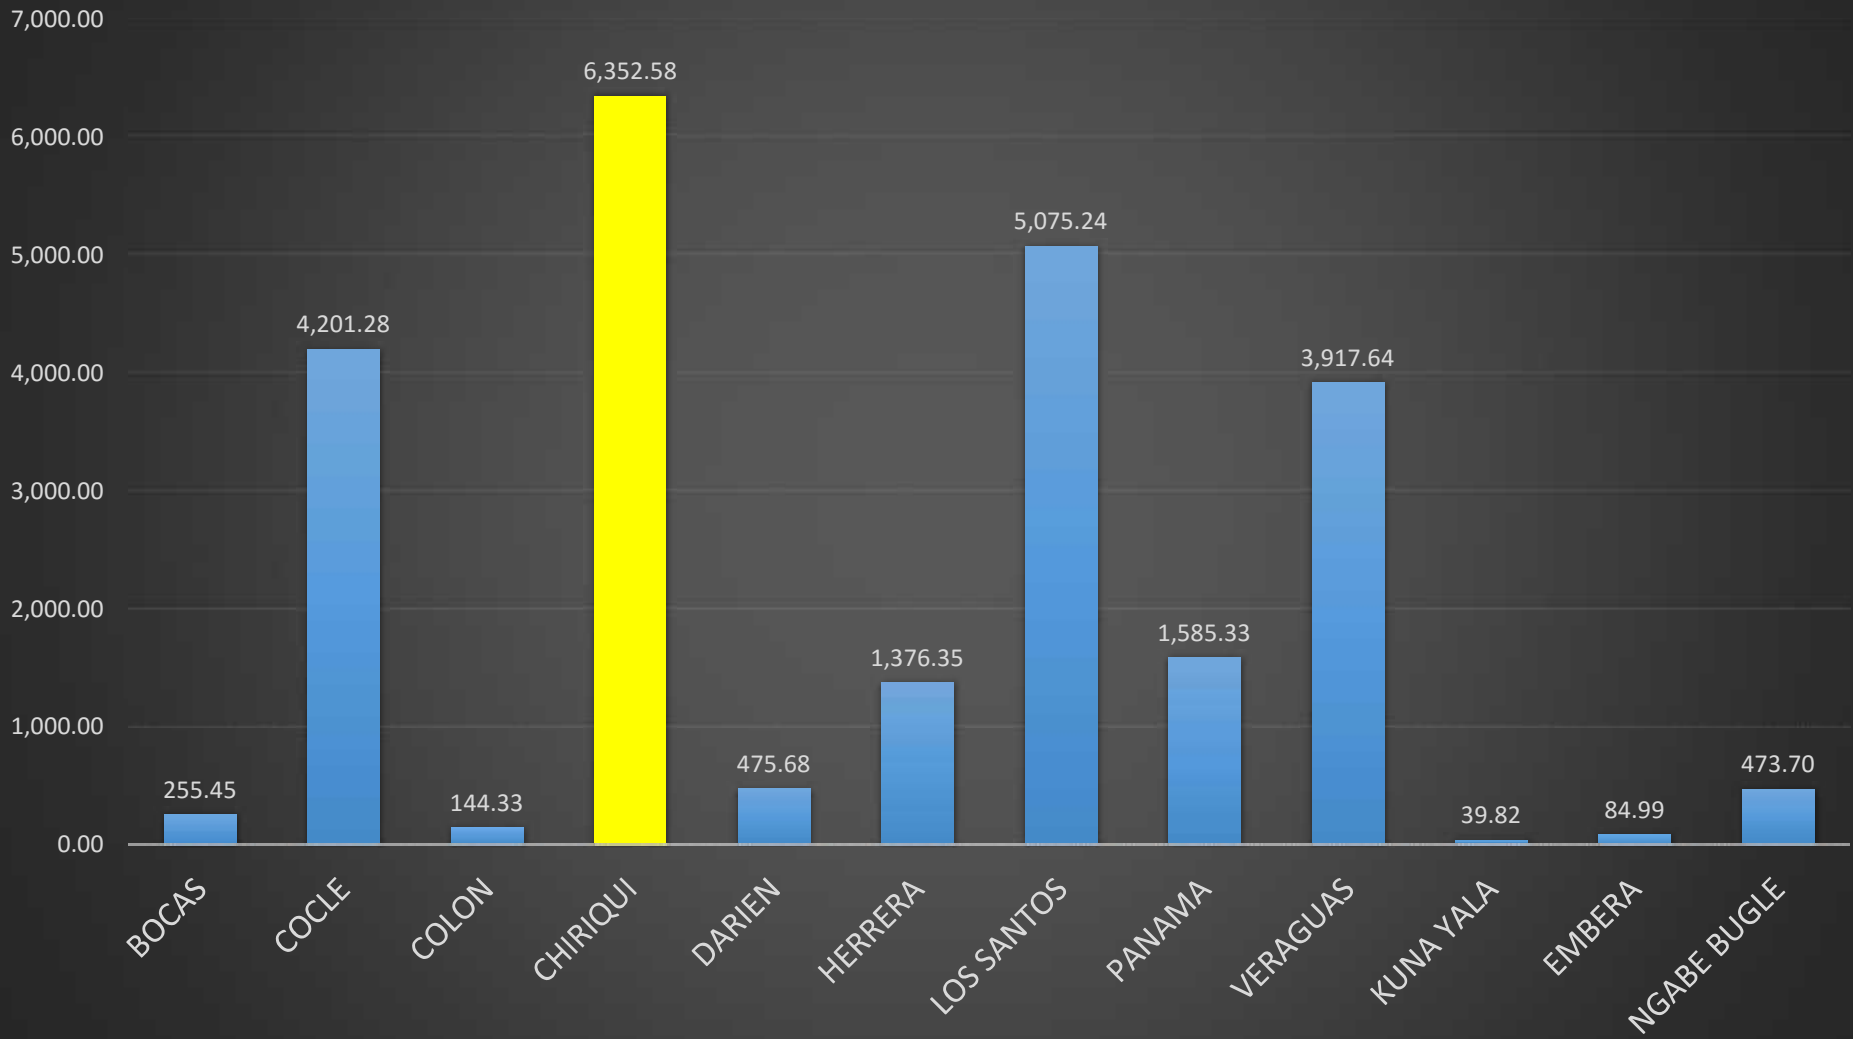

Chiriqui

Actor excepcional !

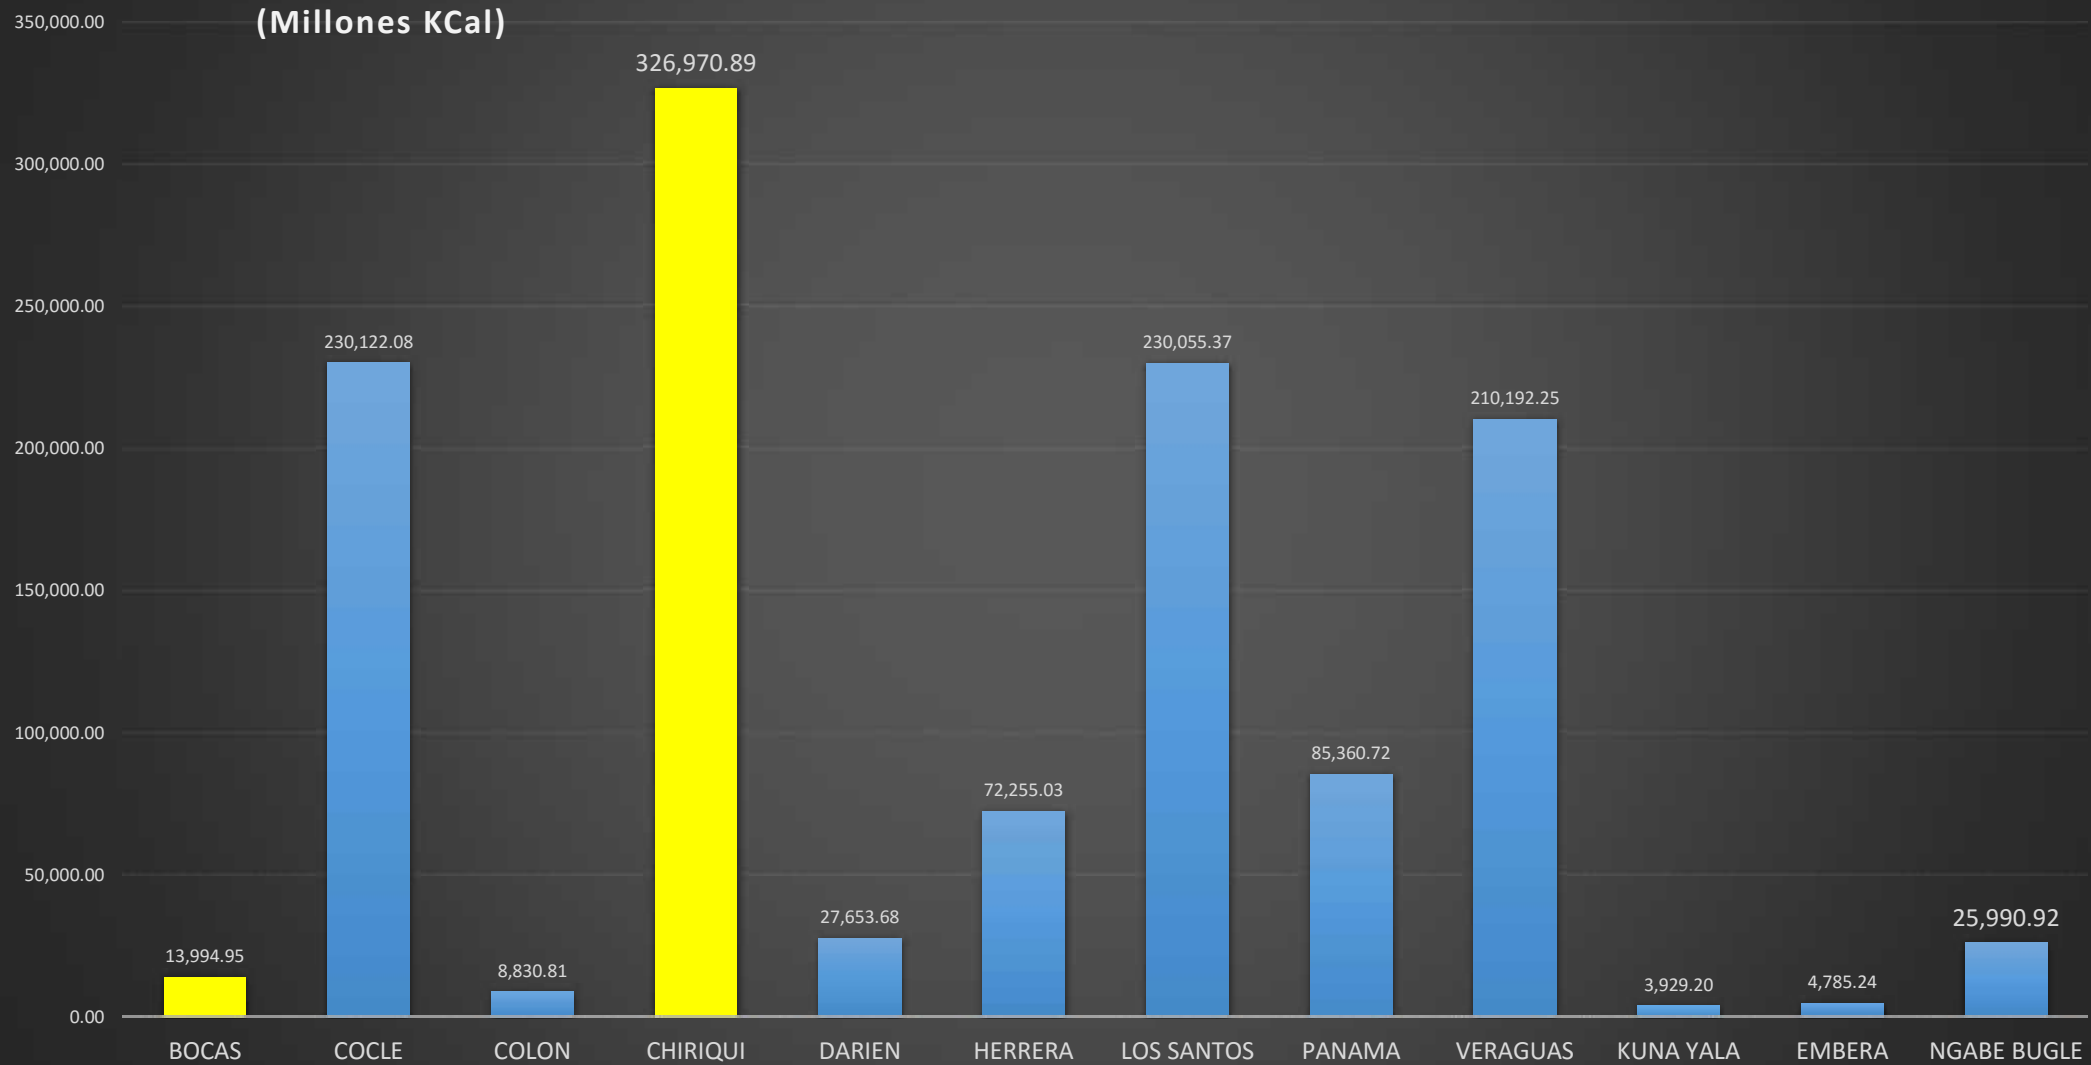

Produccion Bruta (TM)

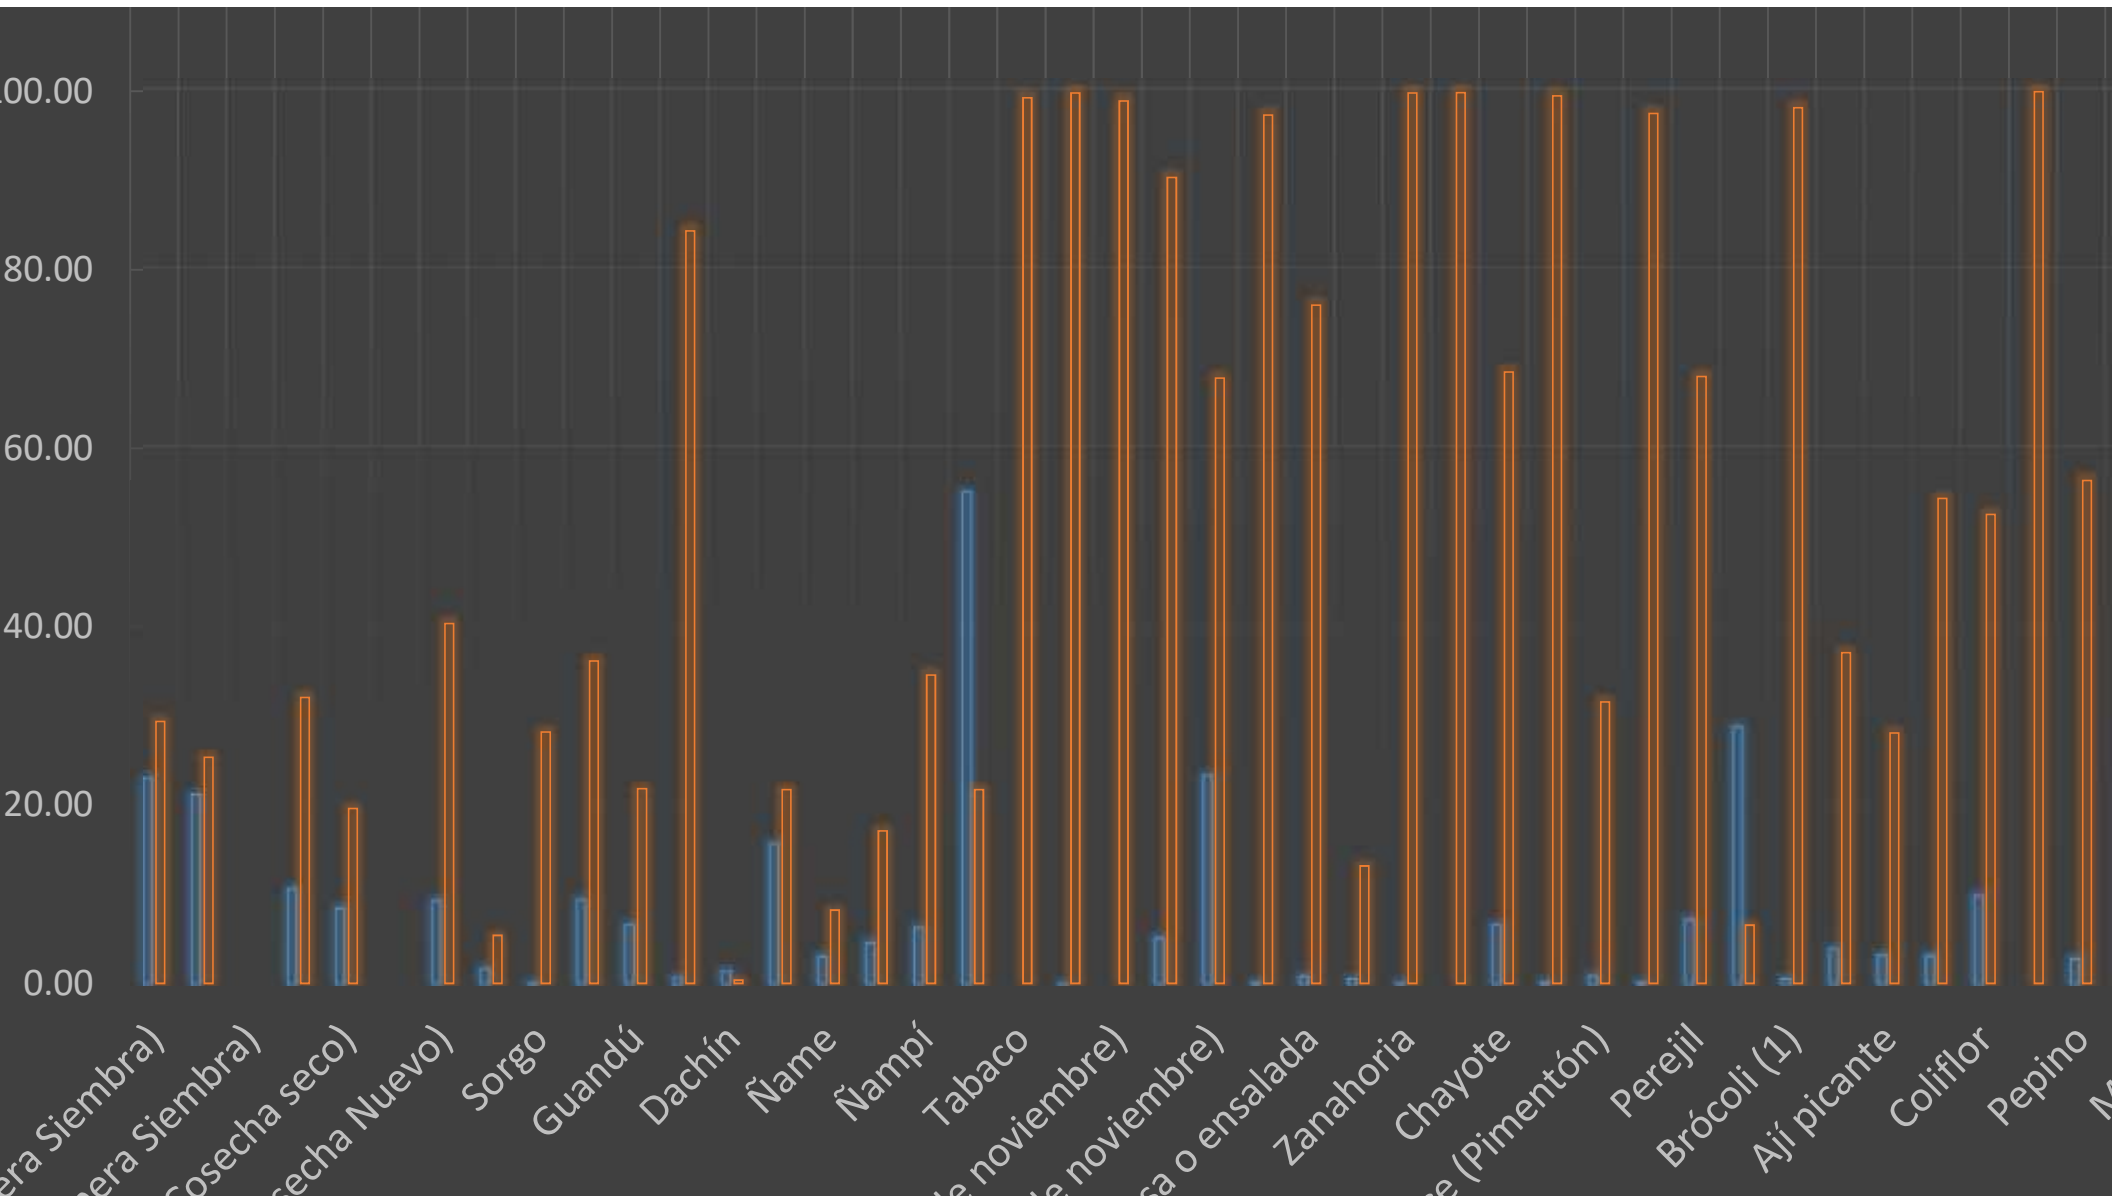

Produccion Proteina vegetal (TM)

Produccion Calorias Totales (Millones KCal)

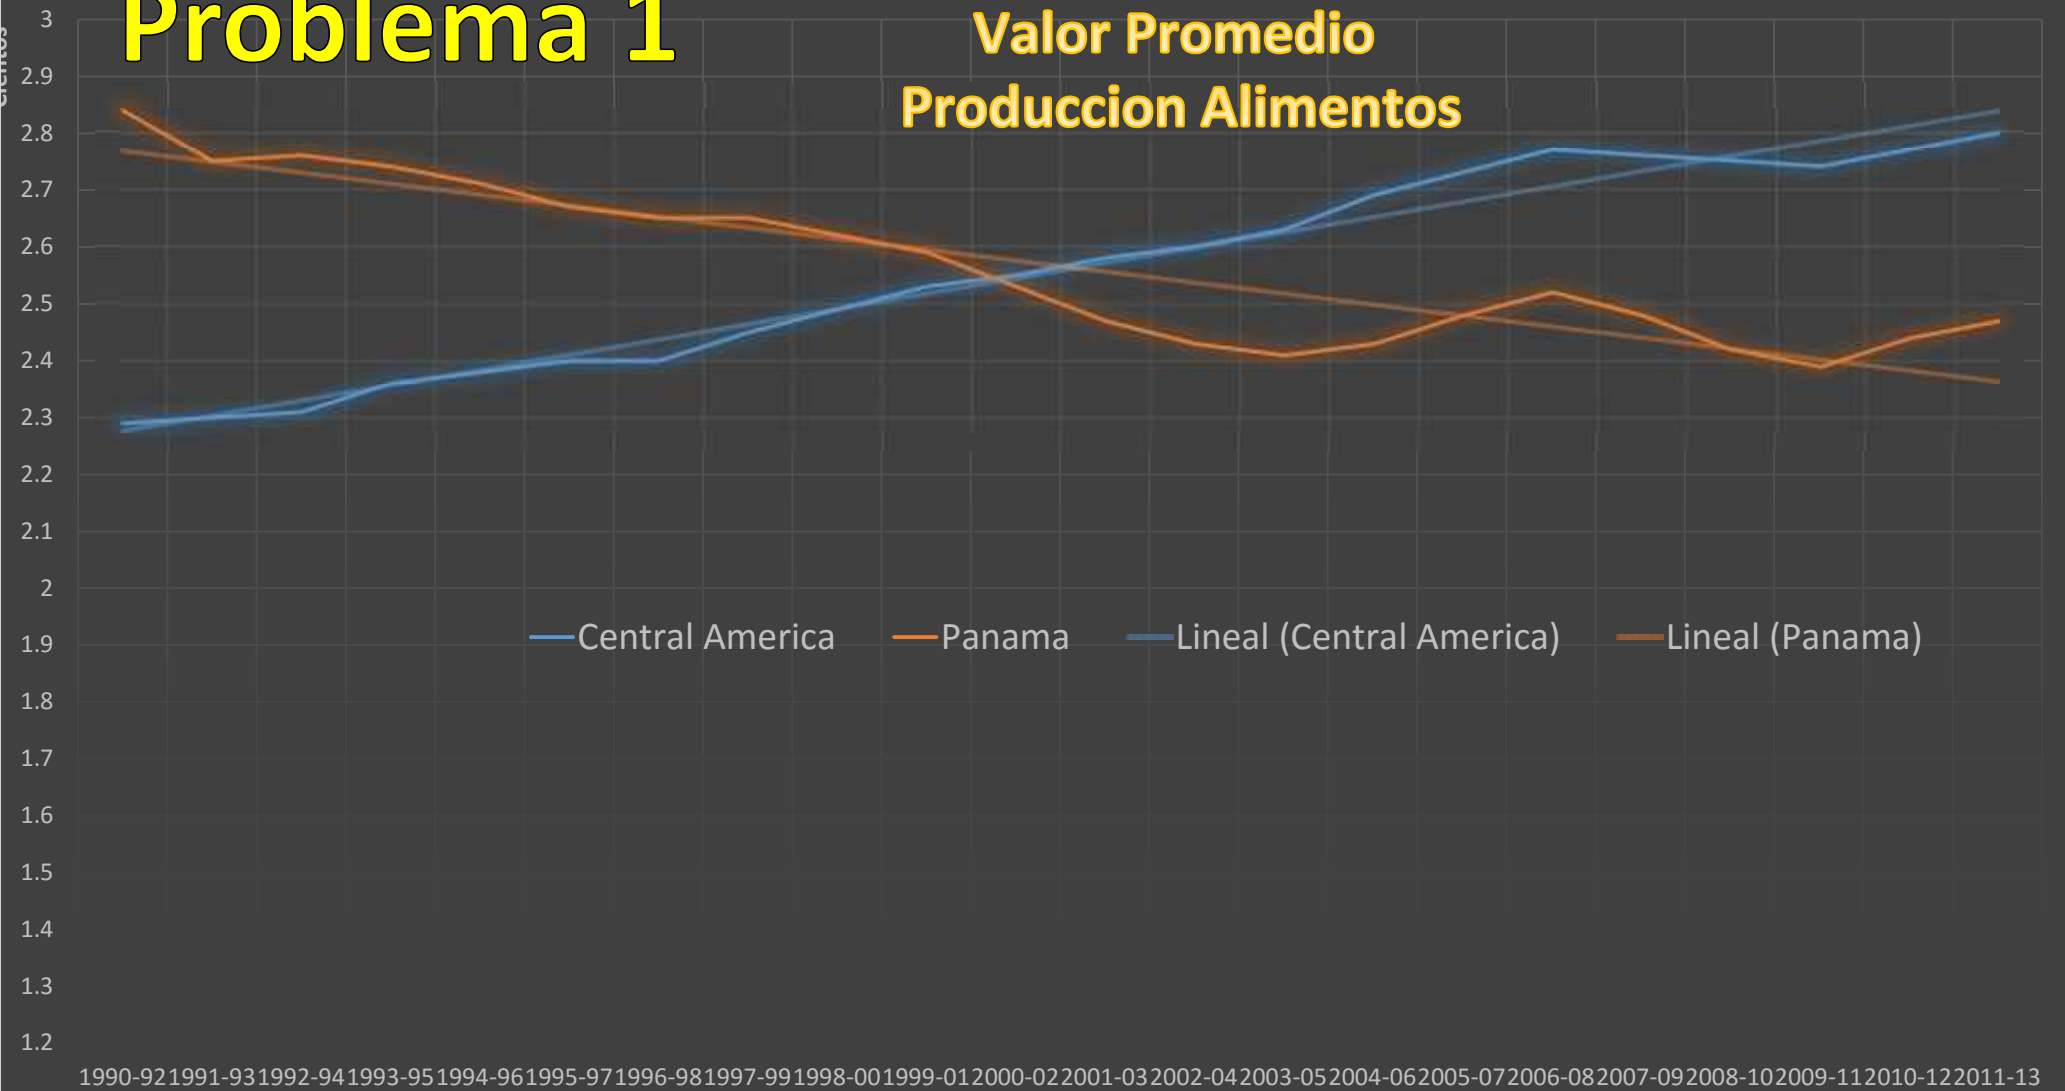

Pero . . .

1. Produccion Alimentos lento
2. Situacion Social
3. Activos Agua y bosques en Disminucion

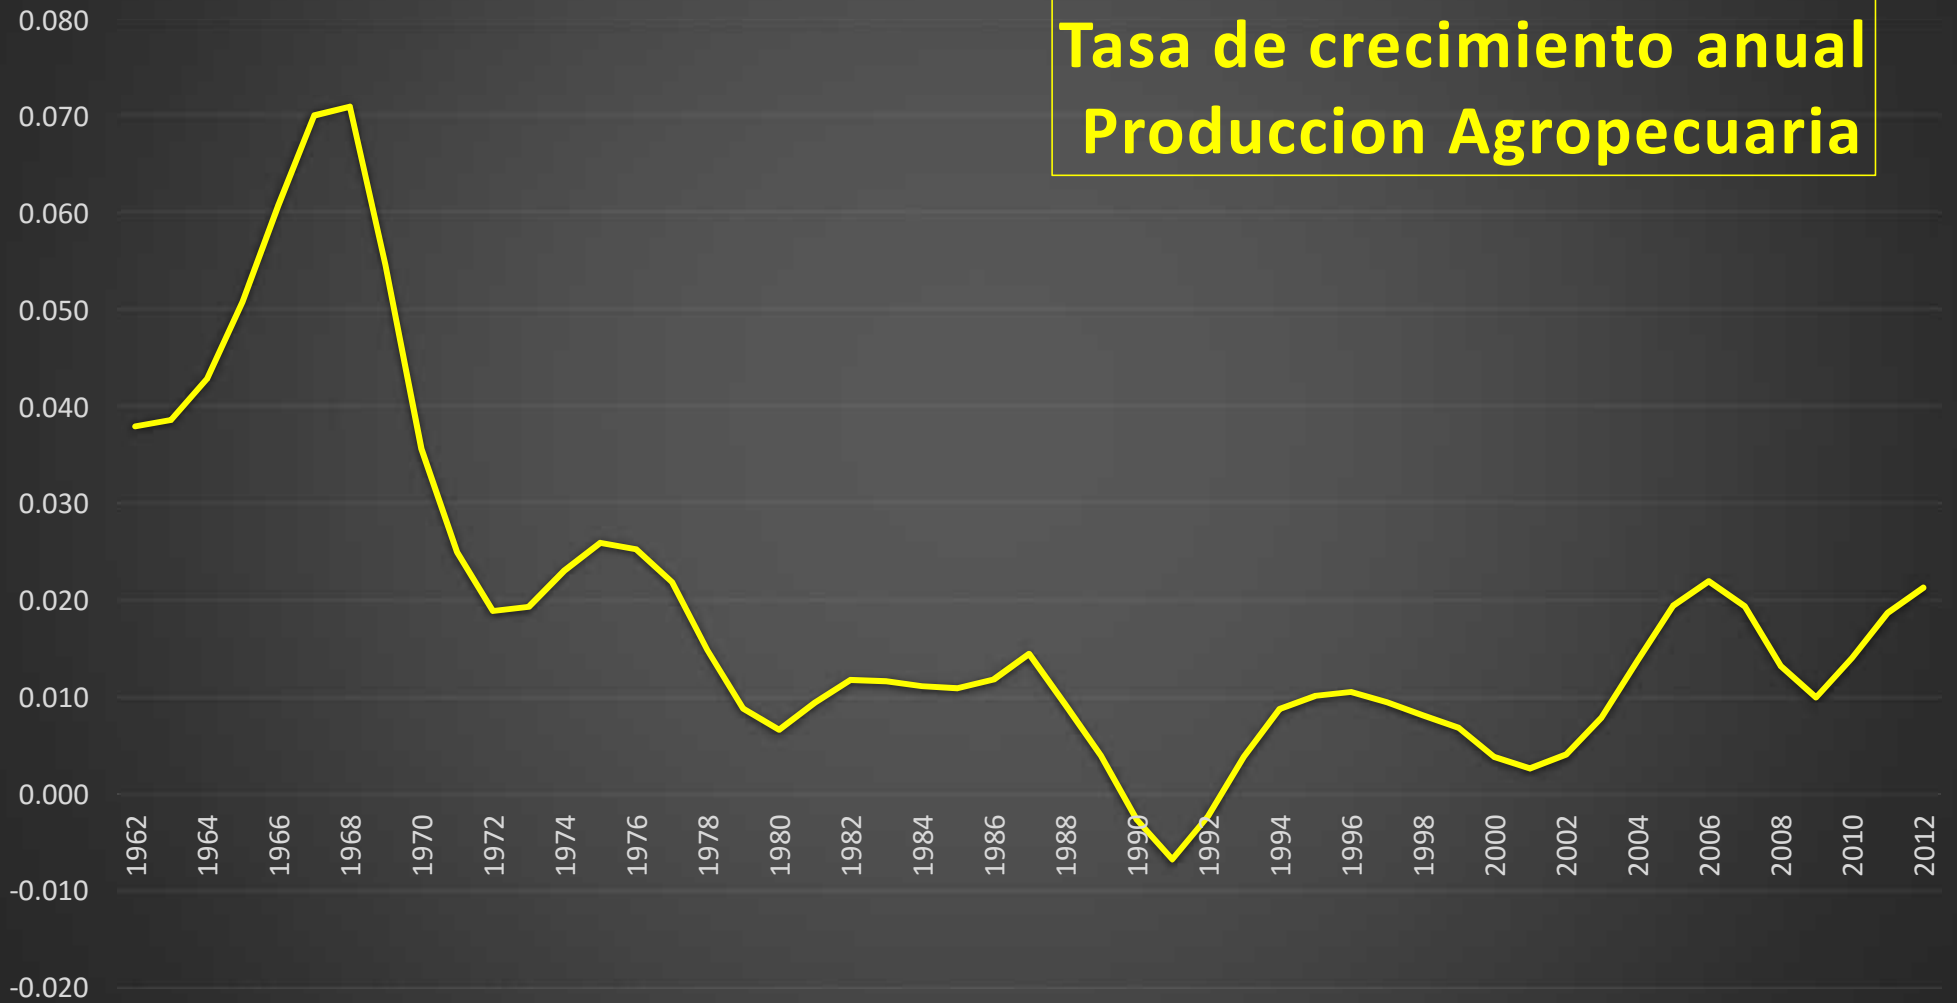

Problema 1

Valor Promedio Produccion Alimentos

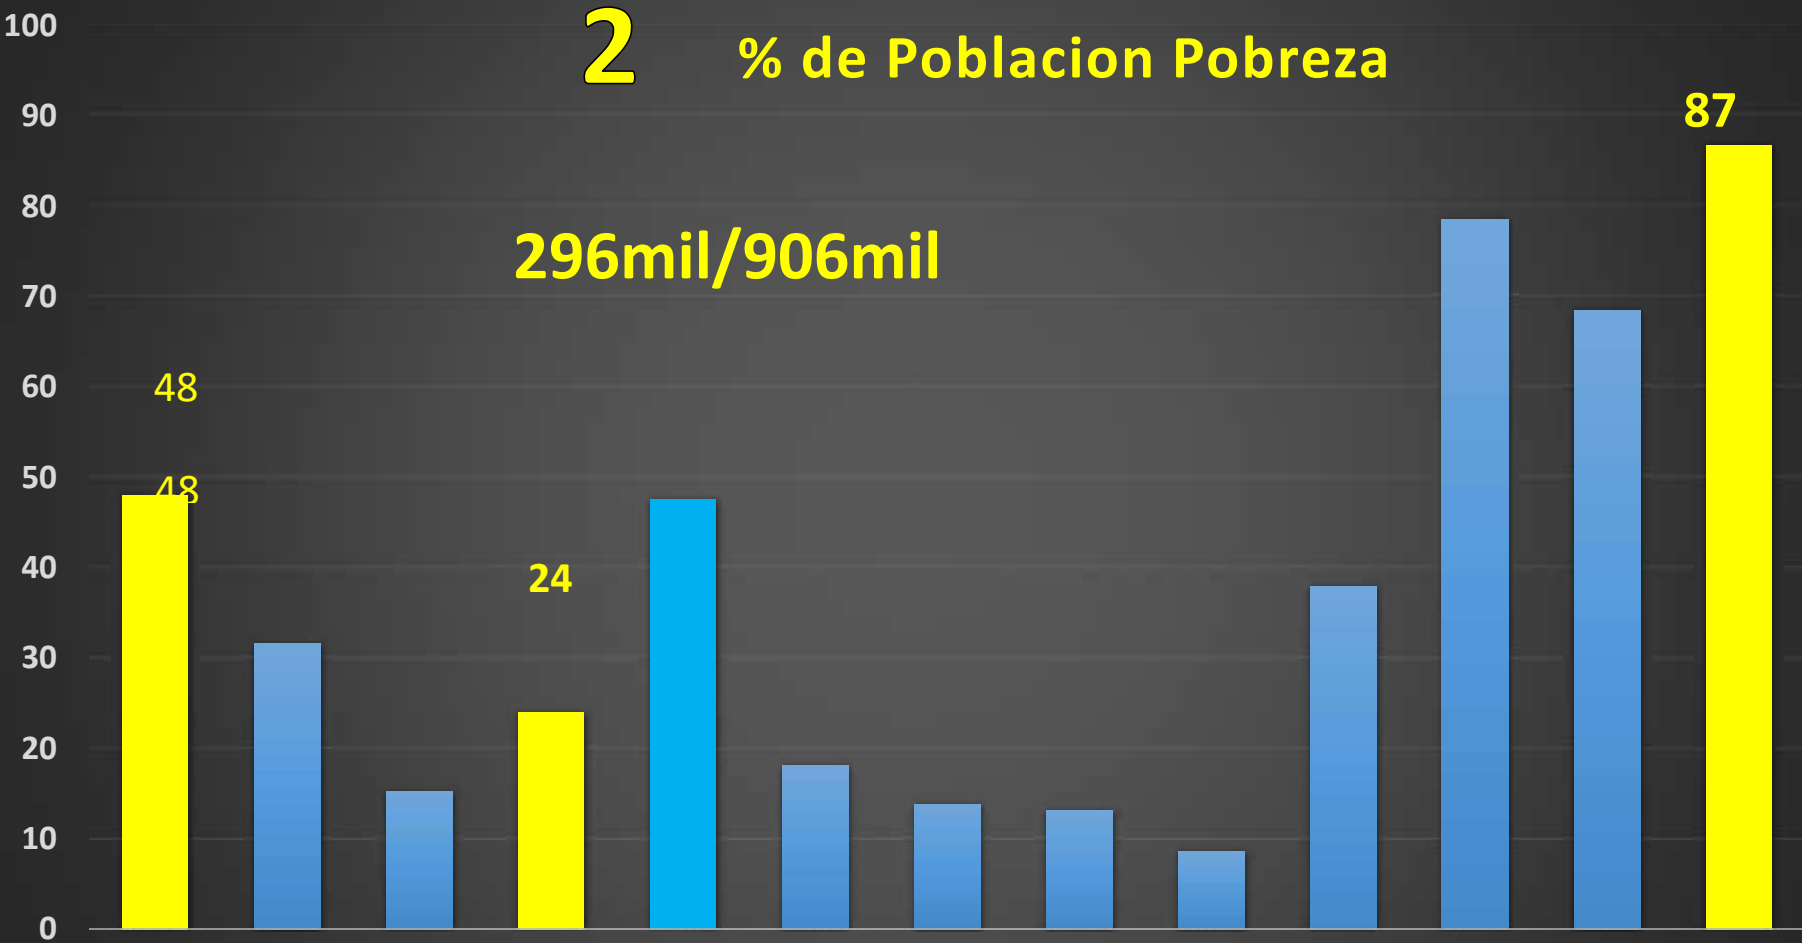

Problema 2

**Tasa de crecimiento anual
Produccion Agropecuaria**

2 % de Poblacion Pobreza

296mil/906mil

2

Inseguridad Alimentaria

A bar chart with a dark grey background and horizontal grid lines. Two blue bars are shown, both with the value '1179523' written inside them in yellow. The bars are positioned above their respective category labels.

Categoría	Valor
Ingreso Per capita de 2 a 3 veces CBF	1179523
Ingreso Per Capita < \$ 158	1179523

1179523

1179523

**Ingreso Per capita de 2 a 3 veces
CBF**

Ingreso Per Capita < \$ 158

Problema 3

**Producción Servicios a y
Activos Ambientales en
disminución**

Para crear

BATIPA FIELD INSTITUTE – Research and Education for Conservation and Sustainability

Mission:

Applying science and
education for the conservation
and sustainable management
of natural resources

Presented to the Oteima Board of Directors by
Dr. Russ Mullen, Iowa State University -
Consultant to Oteima University under the
Fulbright program from USA Embassy

Why Batipa?

- 2000 ha area of mangroves
- 1000 ha = Teak production
- 600 ha = Wildlife Preserve that includes corridors
- 400 ha = pasture land and bovine reproduction center

Batipa has abundant Neotropical biodiversity

Objetivos:

1. Polo investigacion I+D para DS
2. Crear capacidades analiticas desarrollo regional
3. Formacion masa critica investigadores RRNN-DS

Solicitud apoyo tecnico para:

1. Formalizar creacion CB

2. Preparacion Plan de negocio y plan de accion

Gracias!
